Object: Watertightness after ageing

Invoice receiver MATERIA SA
Invoice number and date 70952 – 14/05/2024

Dear Customer,
Copernit SpA ensures that the following bituminous membranes:

Product code	Description	Batch number	Production date
GE70K50BEX00GR	MFT MONO EXTRA MINERAL KG 5 WHITE (ML1X8)	M80357	29/04/2024

will pass the watertightness test (water pressure 60kPa for 24 h, according to EN 1928 - method A) after 20 years from the date of production.

If within the period of 20 years, from the date of production, the material should not be waterproofing as a result of manufacturing defects, the manufacturer guarantees the customer the pro-rata reimbursement of the total original purchasing price or part of the same.

Copernit SpA shall not however be liable for, any accidental, consequential, direct or indirect damage or punitive damages deriving from the failure of the waterproofing material, including damage to the interior or exterior of the building, damage caused by wind to the membrane, any damage to property or adjacent properties, injury sustained by any person, loss of business or profit.

Events not covered by this declaration:

- a) Erroneous conception and/or design of the roofing system.
- b) Improper installation of the waterproofing membrane, including failure to comply with the specification and recommendation of the manufacturer.
- c) Lack of adequate protection of the waterproofing system, routine maintenance of the membrane and cleaning of drains.
- d) Damage to the waterproofing system or to its protective covering caused by the owner or by third party during installation, repairs, maintenance work of the application of other materials.
- e) Bad performance of the roofing due to unforeseen agents or factors, including significant variation in the fundamental use of the building.
- f) Damage caused by yielding or lesions of the laying surface, the walls, the foundations or other structural parts of the building.
- g) Damage to the membrane caused by the use of unapproved or defective material laid or applied above or below the waterproofing membrane (e.g. decks, insulation, ballast, tiles, paint, etc.) or by the incorrect use of such material.
- h) Mistreatment in general, including damage caused by insurrection, acts of war or vandalism or simply by regular traffic.
- i) Use of above mentioned membranes for a different purpose to that for which it was originally designed and sold, including wear and tear caused by bad use or abuse.
- j) Exceptional events or natural calamities.

Sincerely,

COPERNIT SpA
