

# Primax® Universal Skylight

The Primax® Universal Skylight is an economical solution for pitched roofs, providing a permanent window to the roof space, allowing light, ventilation and access into non-habitable rooms.

## Product features & benefits

- Fast and easy installation
- Universal application for concrete and clay tiles, suitable for most roof tile profiles (without need for cutting tiles); can be used with plain tiles
- Provides daylight into the loft for all cold pitched roofs
- Can be used for trickle ventilation
- Window opens outwards – either top hung, or to left or right
- Polycarbonate dome is made to withstand impact and thereby resist break-ins
- When fully opened, it can be used to gain access to the roof for maintenance

## Area of application

Suitable for:

- New build or refurbishment
- Most tile profiles without need for cutting tiles
- Concrete & clay tiles
- 16-55° roof pitches

## Material

Frame – Hard-PVC

Dome – Re-inforced polycarbonate

Apron – PVC

Kickstrip – Aluminium

## Dimensions

704mm x 783mm (outer dimensions)

475mm x 520mm (inner dimensions)

## Packaging

1 piece per carton

6 pieces per pallet

## Product codes / Colours

KT 4001-3-0100 (red)

KT 4001-3-0202 (dark brown)

KT 4001-3-0430 (anthracite)

KT 4001-3-0450 (black)

## Certification

CE-certified
