

ALPHAacoustic - UBF/LBF

Universal desk Bracket Fixing System

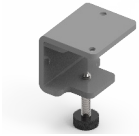

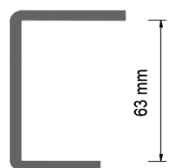

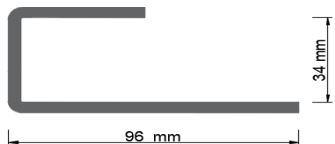

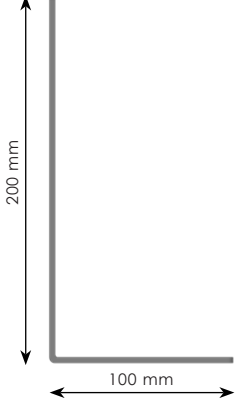

The Universal Bracket Fixing systems offer a simple and efficient adjustable clamps mounting method for ALPHAacoustic-Desk partition panels. Through the different types of support brackets, our main goal is to meet office mounting needs regardless of desktop type.

DESCRIPTION

The Universal Bracket Fixing systems (UBF) typically consist of reinforced metal frame, with a Hand Knob Tightening Screw at the bottom. The bracket can be fix into the Acoustic Desk frame with Appropriated self-drilling screws (accompany the product) in different positions across the desk panel.

Our technical department can choose the appropriate fixing bracket according the design of your office desk.

*Standard color RAL9006

Type: UBF-mini		
Type: UBF-High		
Type: UBF-Long		
Type: LBF-Corner	  LBF-Corner.20 LBF-Corner.40	

A fixing label is placed on their upper junction of the acoustic panels in order to keep them connected. The bottom side of the label consists of a double sided tape that has pressure-sensitive adhesive, allowing two panels to be bonded together.

Otherwise, the desk panels can be fixed together using a hook and loop fastener (type Velcro).
